SMARTHome

Most information and actions for the SMARTHome subsystems are available at a glance. For example, you can see the current and target temperatures of a room and lock and unlock the front door of the house from the Home screen.

However, to access more functionality, just select the background of the subsystem you would like to use. We will demonstrate selecting the Access subsystem.

The image shows a user interface for managing smart home subsystems. At the top, there is a navigation bar with three tabs: "Add/Remove Subsystems" (highlighted in blue), "Help", and "System Settings". A gear icon is located in the top right corner.

The main area contains several subsystem cards:

- Bedrooms**: Set to 19c, status Off. On at 9.00pm.
- Kitchen**: Set to 25c, status Stable. Off at 10.00pm.
- Living Room**: Set to 25c → 22c, status Cooling. Off at 9.00pm.
- Access**: Includes controls for Front door, Back door, Garage, and Side door.
- Motion**: Includes video feeds for Living Room, Kitchen, Bedrooms, and Garage.
- Lights**: Includes sliders for Lounge, Family, and Kitchen.
- Wifi**: Lists connected devices: Johns Iphone, Elise's Macbook, TV, and iPad.
- A central circular callout highlights the "Add Subsystem" feature, which allows removing a subsystem to free up space for adding an alternative system. It also includes a dropdown menu for selecting a subsystem type (e.g., Music Player, Movie Player).

At the bottom right, there are three small icons: a left arrow, a right arrow, and a red X.

The word "SMARTHome" is visible at the bottom center.

# SMARTHome

The image shows a user interface for a smart home system named "SMARTHome". At the top right is a gear icon. Below it is a menu bar with three items: "Add/Remove Subsystems" (highlighted in blue), "Help", and "System Settings".

The main area contains several panels:

- Bedrooms:** Temperature 19c, Status Off, On at 9.00pm.
- Kitchen:** Temperature 25c, Status Stable, Off at 10.00pm.
- Living Room:** Temperature 25c → 22c, Status Cooling, Off at 9.00pm.
- Access:** Front door, Back door, Garage, Side door status switches.
- Motion:** Living Room, Kitchen, Bedrooms, Garage status switches.
- Lights:** Lounge, Family, Kitchen brightness sliders.
- Wifi:** Connected devices: Johns Iphone, Elise's Macbook, TV, iPad.

A large circular overlay is centered on the screen, containing a dropdown menu with "Music Player" (selected), "Movie Player", "Calender", and "Notepad". Below the menu is a green circle with a white plus sign and the text "Add Subsystem".

At the bottom right is a large, empty rectangular box with a dashed green border.

At the very bottom right, the text "SMARTHome" is displayed.

# Settings

The image shows a user interface for a smart home system. At the top left is a large red power button icon. To its right are three buttons: "Add/Remove Subsystems", "Help", and "System Settings". Further right is a gear icon. Below these are three main sections:

- Bedrooms:** Set to 19c, status Off. On at 9.00pm. Control icon: a small power button.
- Kitchen:** Set to 25c, status Stable. Off at 10.00pm. Control icon: a small power button.
- Living Room:** Set to 25c → 22c, status Cooling. Off at 9.00pm. Control icon: a small power button.

A large circular central control element is positioned between the three sections. To its left is the **Access** section, which includes four toggle switches for Front door, Back door, Garage, and Side door. To its right is the **Motion** section, which lists video feeds for Living Room, Kitchen, Bedrooms, and Garage.

Below the central circle are two more sections:

- Lights**: Includes sliders for Lounge, Family, and Kitchen.
- Wifi**: Shows connected devices: Johns Iphone, Elise's Macbook, TV, and iPad, each with a Wi-Fi signal icon.

At the bottom right is a large "SMARTHome" logo.
